

July 21, 2010

CANFOR PULP INCOME FUND ANNOUNCES RECORD SECOND QUARTER 2010 RESULTS

Vancouver, BC – Canfor Pulp Income Fund (the Fund) (TSX: CFX.UN) announced today its second quarter 2010 results as well as the results of Canfor Pulp Limited Partnership (the Partnership) in which the Fund has a 49.8% ownership.

The Partnership reported record sales of \$247.6 million and net income of \$43.1 million, or \$0.60 per unit, for the quarter ended June 30, 2010. The Partnership generated record EBITDA of \$63.7 million in the quarter. The Fund reported net income of \$22.1 million, representing the Fund's share of the Partnership's net income and a future income tax recovery of \$0.7 million.

In the quarter, the Partnership generated adjusted distributable cash of \$62.5 million, or \$0.88 per unit, and the Partnership and the Fund declared distributions of \$0.52 per unit.

Improved Partnership results compared to the first quarter of 2010 were attributable to higher prices for the Partnership's pulp and paper products, partially offset by the stronger Canadian dollar, lower shipments and higher freight costs.

The Partnership's operations ran well in the quarter achieving production records for both total tonnes and average daily production rate. A scheduled maintenance outage was completed at the Intercontinental Pulp Mill in the second quarter resulting in approximately 10,000 tonnes of reduced production. A scheduled maintenance outage is planned for the third quarter at the Northwood Pulp Mill with an estimated 10,000 tonnes of reduced production, with no further maintenance outages planned for the fourth quarter of 2010.

Softwood pulp markets remained tight through the second quarter of 2010 as steady demand and continued tight supply of global softwood pulp supported further price increases. The NBSK pulp list price in North America during March 2010 was US\$910 per tonne with monthly price increases through the second quarter of 2010 resulting in a price for June 2010 of US\$1,020 per tonne.

The NBSK pulp list price for July is unchanged from June at US\$1,020 per tonne for North America. Although the global softwood supply/demand balance still favours producers, downward pressure on pricing is currently being exhibited in the market in China. A reduction in market pulp consumption from Asia combined with a typical seasonal slowdown during the summer months, may exert continued market pressure to reduce NBSK pulp list prices over the next three to six months.

On June 30, 2010 the Partnership received approval from the Canadian federal government to proceed with two Green Transformation Program projects totaling \$15.6 million. The Partnership has been allocated a total of \$122.2 million and expects to submit further projects for approval over the balance of 2010. These projects are expected to provide economic and environmental benefits to the Partnership's operations.

Today the Fund announced the monthly distribution of \$0.22 per Fund unit for the month of July 2010, to be paid on August 13, 2010, to unitholders of record at the close of business on July 30, 2010.

Additional Information

A conference call to discuss the second quarter 2010 financial and operating results will be held on Thursday, July 22, 2010 at 7:00 a.m. Pacific time.

To participate in the call, please dial 416-641-2140 or Toll-Free 1-866-852-2121. For instant replay access, please dial 416-695-5800 or Toll-Free 1-800-408-3053 and enter participant pass code 8663005. The conference call will be webcast live and will be available at www.canforpulp.com/investors/webcasts.asp.

This news release is available on the Partnership's website at www.canforpulp.com.

About Canfor Pulp Income Fund

Canfor Pulp Income Fund (the Fund) is an unincorporated, open-ended trust established under the laws of Ontario, created to indirectly acquire and hold an interest in Canfor Pulp Limited Partnership (the Partnership). The Fund indirectly holds a 49.8% interest in the Partnership with Canadian Forest Products Ltd., a subsidiary of Canfor Corporation (collectively Canfor) holding the remaining 50.2% interest in the Partnership.

Forward-Looking Statements

Certain statements in this press release constitute "forward-looking statements" which involve known and unknown risks, uncertainties and other factors that may cause actual results to be materially different from any future results, performance or achievements expressed or implied by such statements. Words such as "expects", "anticipates", "intends", "plans", "will", "believes", "seeks", "estimates", "should", "may", "could" and variations of such words and similar expressions are intended to identify such forward-looking statements. In particular, material forward-looking statements in this press release include the expected effective date of the Arrangement. In some instances, material assumptions are disclosed elsewhere in this press release in respect of forward-looking statements. Other risks and uncertainties are detailed from time to time in reports filed by the Fund with the securities regulatory authorities in all of the provinces and territories of Canada to which recipients of this press release are referred to for additional information concerning the Fund and Partnership, its prospects and uncertainties relating to the Fund and Partnership and its prospects. Although we believe that the expectations reflected by the forward-looking statements presented in this press release are reasonable, these forward-looking statements are based on management's current expectations and beliefs and actual events or results may differ materially. New risk factors may arise from time to time and it is not possible for management to predict all of those risk factors or the extent to which any factor or combination of factors may cause actual events and results, performance and achievements of the Fund and Partnership to be materially different from those contained in forward-looking statements. The forward-looking statements speak only as of the date on which such statement is made, are based on current information and expectations and the Fund and Partnership assume no obligation to update such information to reflect later events or developments, except as required by law.

Forward-looking statements in this press release include statements made under:

- *"Critical Accounting Estimates" on page 4;*
- *"SIFT Conversion Rules" on page 5;*
- *"Conversion to International Financial Reporting Standards" on page 5;*
- *"Outlook – Pulp" on page 9;*
- *"Outlook – Kraft Paper" on page 11;*
- *"Financial Requirements and Liquidity" on page 12;*
- *"Critical Accounting Estimates" on page 14;*
- *"Conversion to International Financial Reporting Standards" on page 14;*
- *"Distributable Cash and Cash Distributions" on page 16.*

Material risk factors that could cause actual results to differ materially from the forward-looking statements contained in this press release include: general economic, market and business conditions; product selling prices; raw material and operating costs; exchange rates; changes in law and public policy; and opportunities available to or pursued by the Fund and the Partnership. Additional information concerning these and other factors can be found in the Fund's Annual Information Form dated February 18, 2010, which is available on www.sedar.com.

Canfor Pulp Income Fund and Canfor Pulp Limited Partnership Second Quarter 2010

The information in this report is as at July 21, 2010.

CANFOR PULP INCOME FUND

The Fund is an unincorporated open-ended trust established under the laws of Ontario on April 21, 2006, pursuant to the Fund Declaration. The principal head office of the Fund is located at 1700 West 75th Avenue, Vancouver, BC, Canada. The Fund has been established to acquire and hold, through a wholly-owned trust, the Canfor Pulp Trust (the Trust), investments in Limited Partnership Units of the Partnership, and such other investments as the Trustees of the Fund may determine. The general partner of the Partnership is Canfor Pulp Holding Inc. (the General Partner) and each limited partner holds an ownership interest in the General Partner equal to its proportionate interest in the Partnership.

At July 21, 2010, there were a total of 35,493,505 Fund units issued and outstanding, and the Fund indirectly held a total of 35,493,542 units of the Partnership, representing 49.8% of the Partnership. Canadian Forest Products Ltd. (Canfor) held 35,776,483 Class B Exchangeable Limited Partnership Units, representing 50.2% of the Partnership. The Class B Exchangeable Limited Partnership Units are indirectly exchangeable for an equivalent number of Fund Units pursuant to the terms of an exchange agreement (Exchange Agreement) dated July 1, 2006 among Canfor, the Fund, the Trust, the Partnership and the General Partner. The Exchange Agreement contains, among other things, the procedure through which the Class B Exchangeable Limited Partnership Units may be exchanged for Fund Units.

Each unitholder participates pro-rata in any distributions from the Fund. Under present income tax legislation, income tax obligations related to the distributions of the Fund are the obligations of the unitholders and the Fund is only taxable on any amount not allocated to the unitholders.

The Fund expects to convert to a corporation on or about January 1, 2011, pursuant to a plan of arrangement approved at the annual general meeting on April 27, 2010.

SELECTED QUARTERLY FUND FINANCIAL INFORMATION

(thousands of dollars, except per unit amounts, unaudited)	Q2 2010	Q1 2010	Q4 2009	Q3 2009	Q2 2009	Q1 2009	Q4 2008	Q3 2008
Equity income (loss) in Canfor Pulp Limited Partnership	21,430	16,222	7,562	9,098	724	(10,740)	(12,947)	5,513
Net income (loss)	22,111	16,544	6,903	8,497	4,406	(10,740)	(13,686)	5,208
Net income (loss) per Fund unit	\$0.62	\$0.47	\$0.20	\$0.24	\$0.12	\$(0.30)	\$(0.39)	\$0.15
Distributions earned from the Partnership and declared to unitholders	18,457	11,357	4,969	1,065	1,065	2,130	9,938	12,778
Distributions declared per Fund unit	\$0.52	\$0.32	\$0.14	\$0.03	\$0.03	\$0.06	\$0.28	\$0.36
Partnership adjusted distributable cash per unit ¹	\$0.88	\$0.57	\$0.31	\$0.16	\$0.02	\$(0.06)	\$0.02	\$0.54

Note: ¹ Represents the Partnership's adjusted distributable cash on which the Fund is dependent to make its own distributions. For further details on the Partnership's adjusted distributable cash see the Partnership's disclosure on pages 16 and 17.

Equity income (loss) in Canfor Pulp Limited Partnership represents the Fund's share of the Partnership's net income (loss). Net income (loss) is also impacted by future income tax expense (recovery) which is primarily influenced by changes in substantively enacted tax rates and the difference between the tax basis of the Fund's pro-rata ownership of the Partnership's assets and liabilities and the respective amounts reported in the financial statements.

OPERATING RESULTS AND LIQUIDITY

For the quarter ended June 30, 2010, the Fund had net income of \$22.1 million or \$0.62 per Fund unit. The net income was the Fund's share of the Partnership's income for the second quarter of 2010, and also includes a future income tax recovery of \$0.7 million. The future income tax recovery represents an adjustment to the future income tax liability based on the Fund's share of the differences between accounting and income tax values of the Partnership's assets and liabilities. The Fund's equity income in the Partnership increased by \$5.2 million when

compared to the prior quarter due to the Fund's share of increased operating earnings of the Partnership, partially offset by the Fund's share of non-operating items. The Fund's share of operating earnings increased by \$9.5 million due primarily to higher realized prices in Canadian dollar terms for the Partnership's pulp and paper products, lower shipments and higher freight costs. The Fund's share of non-operating items included in equity income of the Partnership for the second quarter of 2010 was a loss of \$4.3 million, and was primarily the result of the foreign exchange loss on translation of US dollar denominated long-term debt and a loss on derivative financial instruments, partially offset by a foreign exchange gain on working capital. Distributions declared by the Partnership and accruing to the Fund were \$18.5 million, of which \$7.1 million was receivable at June 30, 2010. Cash distributions received from the Partnership are the only source of liquidity for the Fund. The Fund's requirements for administrative services are minimal and are funded and expensed by the Partnership. For further information refer to the Partnership's discussion of operating results and liquidity on pages 7 through 13 of this press release.

FUND DISTRIBUTIONS

The Fund is entirely dependent on distributions from the Partnership to make its own distributions and declares distributions on a monthly basis with the record date on the last business day of each month and payable within the 15 days following. Distributions payable by the Partnership to the Fund and distributions payable by the Fund to its unitholders are recorded when declared. During the second quarter of 2010, the Fund declared distributions of \$0.52 per Fund unit or \$18.5 million.

Monthly cash distributions from the Partnership are not directly equal to the Fund's pro-rata share of the Partnership's income (loss) under the equity method. This is primarily due to capital expenditures, foreign exchange gains or losses on translation of US dollar denominated debt, changes in value of derivative instruments, amortization, and other non-cash expenses of the Partnership.

RISKS AND UNCERTAINTIES

The Fund is subject to certain risks and uncertainties related to the nature of its investment in the Partnership and the structure of the Fund, as well as all of the risks and uncertainties related to the business of the Partnership. A comprehensive discussion of these risks and uncertainties is contained in the Fund's Annual Information Form dated February 18, 2010, which is available on www.sedar.com and www.canforpulp.com.

FUND UNITS

At July 21, 2010, there were a total of 35,493,505 Fund units outstanding.

RELATED PARTY TRANSACTIONS

All accounting, treasury, legal and administrative functions for the Fund are performed on its behalf, without charge, by the Partnership pursuant to a support agreement. Distributions earned from the Partnership for the three months ended June 30, 2010 were \$18.5 million of which \$11.4 million was received, with the balance of \$7.1 million receivable on June 30, 2010.

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts recorded in the financial statements. Management regularly reviews these estimates and assumptions based on currently available information. Significant areas requiring the use of management's estimates are the determination of future income taxes, and assessing whether there has been an other than temporary decline in the value of the investment in the Partnership. The determination of the future income tax liability requires management to estimate the future impacts of the Partnership's amortization of capital assets, capital cost allowance claims for tax purposes, and changes to actuarial estimates of employee benefit plans. The Fund accounts for its investment in the Partnership using the equity method. The Fund analyzes the carrying value of its investment in the Partnership by considering the underlying value of the Partnership's business. This assessment includes various long-term assumptions related to the Partnership's operations which may not be reflected in the current market value of the Fund. Changes in these

estimates could have a material impact on the calculation of the future income tax liability or equity investment in the Partnership.

SIFT CONVERSION RULES

On June 12, 2007, legislation was substantively enacted whereby distributions made by publicly traded income trusts and partnerships will be taxed similar to that of income earned and distributed by a corporation. The Specified Investment Flow-Through Trust (SIFT) tax will become effective on January 1, 2011. On March 12, 2009 the Canadian government enacted legislation (SIFT Conversion Rules) which enables the conversion of a SIFT into a corporation on a tax-free rollover basis, prior to 2013. The Fund has reviewed its options and a Plan of Arrangement was presented and approved by unitholders at the annual general meeting on April 27, 2010.

The Plan of Arrangement will result in the reorganization of the Fund's income trust structure into a dividend paying public corporation to be named "Canfor Pulp Products Inc." (CPPI), and the unitholders will become the sole shareholders of CPPI which will own the 49.8% interest in the Partnership. The Fund expects the date of conversion to take place on or about January 1, 2011.

CONVERSION TO INTERNATIONAL FINANCIAL REPORTING STANDARDS

On February 13, 2008, the Accounting Standards Board (AcSB) announced that publicly accountable entities will be required to prepare financial statements in accordance with International Financial Reporting Standards (IFRS) for interim and annual financial statements for fiscal years beginning on or after January 1, 2011. The Fund will rely on the resources of the Partnership to ensure compliance with IFRS. The Partnership intends to convert to these new standards according to the timetable set for these new rules.

A detailed analysis has been completed and a number of areas were identified for further consideration before the date of transition. Various accounting policy choices have been identified to date and are being considered by the steering committee of the Partnership. The Partnership continues to monitor standards development as issued by the International Accounting Standards Board (IASB) and the AcSB, as well as regulatory developments as issued by the Canadian Securities Administrators, which may affect the timing, nature, or disclosure of the Partnership's adoption of IFRS.

The Partnership will continue to review all proposed and continuing projects of the IASB to determine their impact on the Fund, and will continue to invest in training and resources throughout the transition period to facilitate a timely conversion.

The impact on the Fund's future financial position and results of operations is primarily dependent on changes in accounting policies that may materially impact the Partnership's consolidated financial statements.

For further details on the Partnership's transition plan see the Partnership's disclosure on pages 14 and 15.

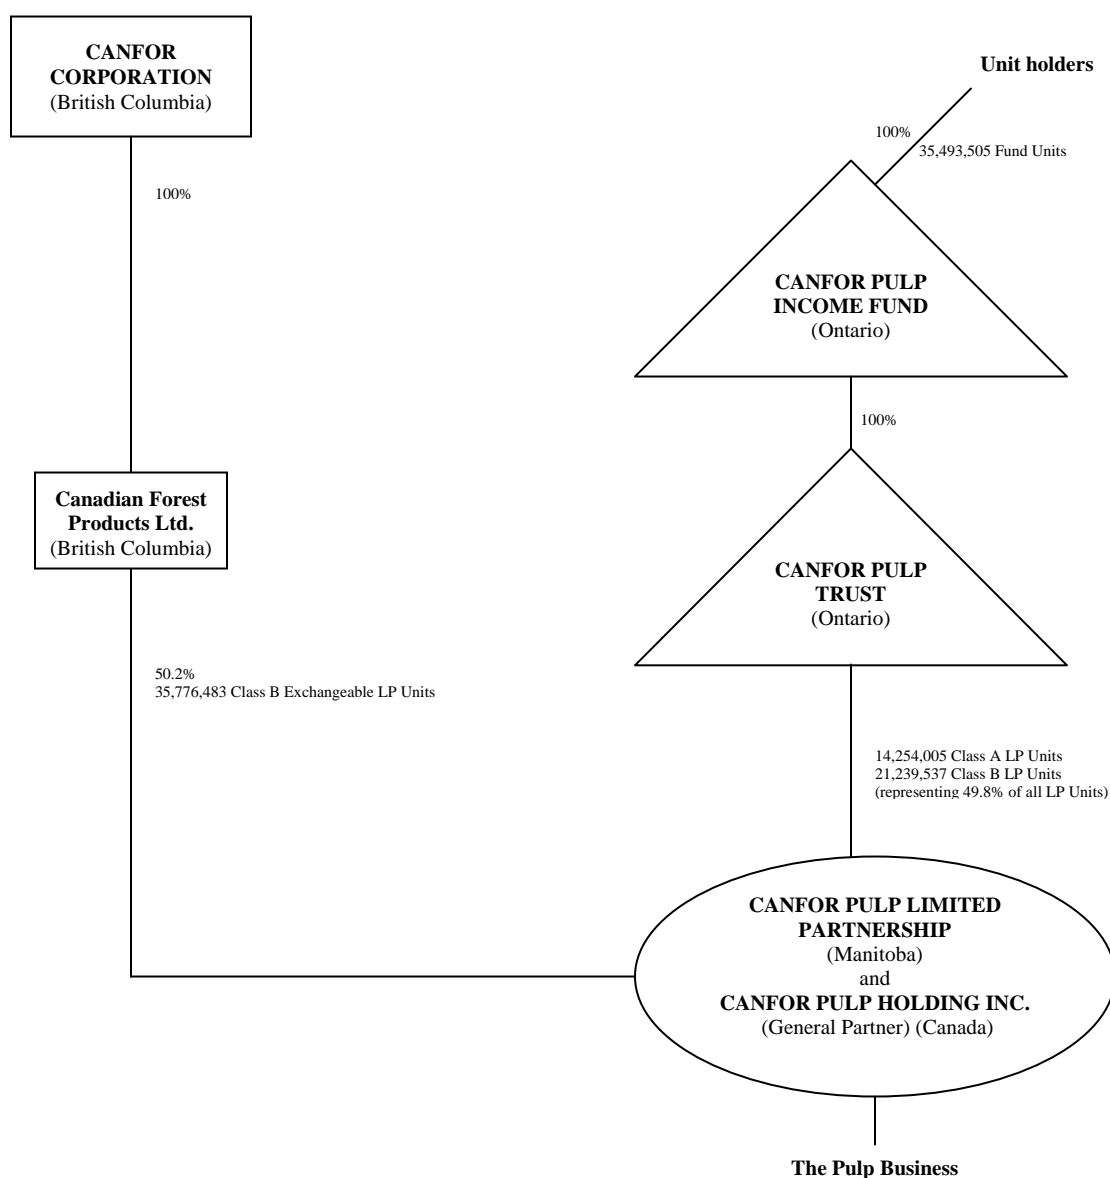

CANFOR PULP LIMITED PARTNERSHIP

Structure

The Partnership is a limited partnership formed on April 21, 2006, under the laws of Manitoba to acquire and carry on the Northern Bleached Softwood Kraft (NBSK) pulp and paper business of Canfor. The business consists of two NBSK pulp mills and one NBSK pulp and paper mill located in Prince George, BC and a marketing group based in Vancouver, BC (the Pulp Business).

At July 21, 2010, the Fund indirectly held a total of 14,254,005 Class A Limited Partnership Units and 21,239,537 Class B Limited Partnership Units, representing 49.8% of the Partnership and Canfor owns the remaining 50.2%. The Partnership is managed, on behalf of the limited partners, by Canfor Pulp Holding Inc., the General Partner. Below is a simplified schematic of the ownership structure.

Ownership Structure

The Business

The Partnership is a leading global supplier of pulp and paper products with operations based in the central interior of British Columbia. The Partnership's strategy is to maximize cash flows and enhance the value of its assets by: (i) preserving its low-cost operating position, (ii) maintaining the premium quality of its products, and (iii) opportunistically acquiring high quality assets.

The Partnership owns and operates three mills with annual capacity to produce over one million tonnes of northern softwood market kraft pulp, 90% of which is bleached to become NBSK pulp for sale to the market, and approximately 140,000 tonnes of kraft paper.

SUMMARY OF SELECTED PARTNERSHIP RESULTS

(millions of dollars, except for per unit amounts, unaudited)	Q2 2010	Q1 2010	YTD 2010	Q2 2009	YTD 2009
Sales	247.6	239.5	487.1	205.0	391.3
EBITDA ¹	63.7	44.1	107.8	7.2	9.4
Operating income (loss)	51.6	32.5	84.1	(5.0)	(14.8)
Net income (loss)	43.1	32.5	75.6	1.5	(20.1)
Per Partnership unit, basic and diluted					
Net income (loss)	\$0.60	\$0.46	\$1.06	\$0.02	\$(0.28)
EBITDA	\$0.89	\$0.62	\$1.51	\$0.10	\$0.13
Average exchange rate (US\$/Cdn\$) ²	0.973	0.961	0.967	0.858	0.829

Notes: ¹ For calculation of EBITDA, see supplementary financial information on page 16.

² Source – Bank of Canada (average noon rate for the period).

EBITDA for the second quarter of 2010 increased by \$19.6 million from the first quarter of 2010 and was \$56.5 million higher when compared to the second quarter of 2009. The improved results when compared to the first quarter of 2010 are attributable to higher realized prices in Canadian dollar terms for the Partnership's pulp and paper products, partially offset by lower shipments and higher freight costs. Realized pulp prices in Canadian dollar terms increased 12% due to a 13% increase in NBSK pulp US dollar list price, partially offset by the strengthening of the Canadian dollar. Unit manufacturing costs were relatively unchanged when compared to the prior quarter as higher fibre and maintenance costs, were offset by the impact of higher production volumes and lower energy costs. Fibre costs increased 4% when compared to the prior quarter due to an increase in the price of sawmill residual chips. Freight costs increased 4% in US dollar terms primarily as a result of higher container rates into Asia.

When compared to the second quarter of 2009, the \$56.5 million increase in EBITDA was primarily attributable to a 54% increase in NBSK pulp US dollar list price and higher energy sales, partially offset by a stronger Canadian dollar, lower pulp shipment volumes and higher freight costs. Realized pulp prices in Canadian dollar terms increased 40% as a 54% increase in NBSK pulp US dollar list price was partially offset by a 13% strengthening of the Canadian dollar. Freight costs in US dollar terms increased 18% when compared to the second quarter of 2009 primarily due to higher container rates into Asia. Abnormally high pulp shipments into China in the second quarter of 2009 were the primary reason for the 12% reduction in volume in 2010.

For the six months ended June 30, 2010, EBITDA of \$107.8 million increased by \$98.4 million when compared to the same period in 2009. The increase in EBITDA was attributable to higher realized pulp prices in Canadian dollar terms, higher energy sales and lower unit manufacturing costs, partially offset by lower realized paper prices and higher administrative costs. Realized pulp prices in Canadian dollar terms increased 27%, as a 42% increase in NBSK pulp US dollar list price was partially offset by a 17% strengthening of the Canadian dollar when compared to the same period in 2009. Lower unit manufacturing costs were attributable to the impact of higher production volumes and lower chemical costs. Realized paper prices in Canadian dollar terms decreased 5% when compared to the same period in 2009, due to the strengthening Canadian dollar.

OPERATING RESULTS BY BUSINESS SEGMENT

Pulp

(millions of dollars unless otherwise noted, unaudited)	Q2 2010	Q1 2010	YTD 2010	Q2 2009	YTD 2009
Sales	214.8	204.8	419.6	173.8	333.0
EBITDA	67.7	47.9	115.6	5.1	4.6
EBITDA margin	32%	23%	28%	3%	1%
Operating income (loss)	56.4	37.1	93.5	(6.2)	(17.8)
Average NBSK pulp list price – (US\$ per tonne, delivered to USA)	993	880	937	645	659
Average NBSK pulp list price – (Cdn\$ per tonne, delivered to USA)	1,021	916	969	752	795
Production – pulp (000 mt)	263.8	253.8	517.6	260.1	490.5
Shipments – Partnership-produced pulp (000 mt)	252.3	268.4	520.7	286.2	526.5
Marketed on behalf of HSLP & Canfor (000 mt)	144.2	138.7	282.9	140.0	247.2

The second quarter 2010 operating income for the pulp segment of \$56.4 million was a \$19.3 million improvement when compared to the first quarter of 2010. The improved results are attributable to higher realized prices in Canadian dollar terms, partially offset by lower shipment volumes. The increased realized pulp prices in Canadian dollar terms of 12% were primarily attributable to a 13% increase in the NBSK pulp US dollar list price, partially offset by the strengthening of the Canadian dollar. The decrease in shipment volumes of 6% was primarily attributable to timing of shipping orders into the U.S. and Asia. Unit manufacturing costs increased marginally when compared to the first quarter of 2010 as higher fibre and maintenance costs were partially offset by the impact of higher production volumes and lower energy costs. Fibre costs increased 4% when compared to the prior quarter due to an increase in the price of sawmill residual chips. Maintenance costs were higher due to the impact of the scheduled maintenance outage at the Intercontinental Pulp Mill in the second quarter of 2010. Energy costs were lower as a result of lower natural gas usage and price when compared to the first quarter of 2010.

Operating income of the pulp segment in the second quarter of 2010 increased by \$62.6 million when compared to the same period a year ago. The improved results were primarily attributable to a 54% increase in NBSK pulp US dollar list price and higher energy sales, partially offset by a stronger Canadian dollar and lower shipment volumes. Realized pulp prices in Canadian dollar terms increased 40% as the increase in NBSK pulp US dollar list price was partially offset by a 13% strengthening of the Canadian dollar. Abnormally high pulp shipments into China in the second quarter of 2009 were the primary reason for the 12% reduction in volume in 2010. Unit manufacturing costs remained flat as the impact of higher fibre costs was offset by lower chemical costs when compared to the same period in the prior year. Fibre costs increased 3% due to increased prices of sawmill residual chips, partially offset by a reduction in the volume and cost of whole log chips.

For the six month period ended June 30, 2010, operating income of \$93.5 million increased \$111.3 million when compared to the same period in 2009. The increase in operating results was attributable to higher realized prices in Canadian dollar terms, lower unit manufacturing costs and higher energy sales. Realized pulp prices in Canadian dollar terms increased 27% as a 42% increase in the NBSK pulp US dollar list price was partially offset by a 17% strengthening of the Canadian dollar when compared to the same period in 2009. Lower unit manufacturing costs were attributable to the impact of higher production volumes and lower chemical costs.

Operations

The Partnership's facilities set a record for average daily production rate during the second quarter of 2010. NBSK market pulp production during the second quarter was 10,000 tonnes higher than the first quarter of 2010, and 3,700 tonnes higher than the second quarter of 2009. The improved production when compared to the prior quarter was a result of record production rates in the current period and reduced production in the first quarter of 2010 as a result of the maintenance outage completed at the Prince George Pulp and Paper (PGPP) Mill, partially offset by the

scheduled maintenance outage at the Intercontinental Pulp Mill in the second quarter of 2010. When compared to the same period in the prior year the increased production was primarily attributable to higher production rates in the current period.

For the six month period ended June 30, 2010 production of 517,600 tonnes was 27,100 tonnes higher than the same period in 2009. The increase is attributable to the higher production rates in the current period and the impact of the market curtailment in January 2009, partially offset by the extended maintenance outage completed at the PGPP Mill in the first quarter of 2010.

Markets – Pulp

Softwood pulp markets remained tight through the second quarter of 2010 as steady demand and the continued tight supply of global softwood pulp supported further price increases. The tight supply conditions continued as a result of maintenance downtime in the second quarter of 2010, the prolonged impact of the Chilean earthquake on February 27, 2010 and delayed restarts of idled mills.

Global printing and writing paper demand remained strong. The printing and writing paper manufacturing sector experienced improved demand through May 2010 (the latest published information available), with demand up 10.3% over May 2009. For May year-to-date, printing and writing paper demand is up 9.9% versus the same period in 2009.

The steady improvement in consumption coupled with the supply side reductions have resulted in very low global pulp inventory levels. At the end of May 2010, World 20¹ producers inventories of bleached softwood pulp inventories was 22 days of supply, a decrease of 1 day over March 2010. By comparison, May 2009 inventories were 29 days of supply. Market conditions are generally considered balanced when inventories fall in the 27-30 days of supply range.

As a result of these tight market conditions, producers were successful at implementing further price increases each month in the second quarter of 2010. The NBSK pulp list price in North America during June 2009 was US\$660 per tonne with successive price increases through March 2010 resulting in a price of US\$910 per tonne. Monthly price increases in the second quarter of 2010 have resulted in a price for June 2010 of US\$1,020 per tonne. In Canadian dollar terms the price increases have been somewhat mitigated by the strengthening of the Canadian dollar which has appreciated 10% over the past year.

Note: ¹ World 20 data is based on twenty producing countries representing 80% of world chemical market pulp capacity and is based on information compiled and prepared by the Pulp and Paper Products Council (PPPC).

Outlook – Pulp

Global softwood inventories held by producers and customers are at low levels compared to what is considered a balanced market. However, global hardwood inventories are starting to rise due to the ramp up of new capacity in Latin America and the restart of Chilean capacity. Through the first five months of 2010 softwood demand has increased 2.8% when compared to the same period in the prior year. Conversely, hardwood demand has fallen 1.1% over the same period. The North American NBSK pulp list price for July is unchanged from June of US\$1,020 per tonne. A price reduction of US\$30 to US\$990 per tonne has been announced effective August 1.

Although the supply/demand balance of global softwood is still in favour of producers, there are signs of potential changes in the market and on softwood pricing. Downward pressure on pricing is currently coming from China. In addition, with pressure on hardwood prices, a reduction in demand from Asia and a typical seasonal slowdown during the summer months, there may be market pressure to reduce NBSK pulp list prices over the next three to six months.

A scheduled maintenance outage is planned for the Northwood Pulp Mill in the third quarter of 2010 with an estimated 10,000 tonnes of reduced production, with no maintenance outages planned for the fourth quarter of 2010.

EBITDA margin	1%	0%	1%	14%	15%
Operating income (loss)	(0.5)	(0.6)	(1.1)	3.5	7.3
Production – paper (000 mt)	36.3	31.0	67.3	30.6	59.0
Shipments – paper (000 mt)	34.4	37.7	72.1	34.3	59.5

The operating loss of the paper segment for the second quarter of 2010 was a \$0.1 million improvement when compared to the first quarter of 2010, and a \$4.0 million deterioration when compared to the same period last year. The marginal increase when compared to the first quarter of 2010 was primarily attributable to higher realized paper prices in Canadian dollar terms offset by higher unit manufacturing costs. Realized prices in Canadian dollar terms increased by approximately 3%. Higher unit manufacturing costs were the result of higher costs for slush pulp partially offset by the impact of higher production volumes and lower spending on maintenance costs. The slush pulp is transferred to the paper segment at a market price with the increase directly attributable to the increase in the realized pulp price in Canadian dollar terms. Higher production volumes and lower maintenance costs are the result of a maintenance outage completed in the first quarter of 2010.

When compared to the second quarter of 2009 the reduction in operating earnings was due to higher unit manufacturing costs, partially offset by a 4% increase in realized prices in Canadian dollar terms. Higher unit manufacturing costs were primarily attributable to higher costs for slush pulp partially offset by higher production volumes.

For the six month period ended June 30, 2010 operating results of the paper segment declined by \$8.4 million when compared to the same period in 2009. The reduction in operating earnings is attributable to higher unit manufacturing costs and a 5% decline of realized paper prices in Canadian dollar terms. Higher paper unit manufacturing costs are attributable to higher costs for slush pulp partially offset by the impact of higher production volumes.

Operations

The Paper machine set a record for average daily production rate during the second quarter of 2010. When compared to the first quarter of 2010, paper production increased by 5,300 tonnes due to record production rates and a scheduled maintenance outage in the first quarter of 2010. When compared to the same period in the prior year, production was 5,700 tonnes higher due to higher production rates and a scheduled maintenance outage in the second quarter of 2009.

For the six month period ended June 30, 2010 production of 67,300 tonnes was 8,300 tonnes higher than the same period in 2009. The increase is attributable to the higher production rates in the current period and the impact of the market curtailment in January 2009.

Markets

Kraft paper markets are solid with strong demand and tight supply through the second quarter of 2010. The American Forest and Paper Association reported that US total kraft paper shipments for June 2010 increased 11% when compared to June 2009 and were up 7% when compared to May 2010. The Paper Shipping Sack Manufacturers' Association shipping sack statistics for June 2010 reveal that industry paper consumption was up 8% from the previous month and 6% when compared to June 2009. The April 1, 2010 price increase was successfully implemented in all markets.

The Partnership's prime bleached shipments increased to 78% of the total from 73% in the prior quarter and 54% when compared to the same period in the prior year.

Outlook – Kraft Paper

The favourable kraft paper market conditions are expected to continue through the third quarter of 2010. Order backlogs are very healthy in both bleached and unbleached heading into the seasonally strongest part of the year. Price increases announced for North America and Europe take effect in July 2010.

Non-Segmented Costs

(millions of dollars, unaudited)	Q2 2010	Q1 2010	YTD 2010	Q2 2009	YTD 2009
Unallocated costs	4.3	4.0	8.3	2.3	4.3
Interest expense, net	1.9	2.0	3.9	2.5	5.1
Foreign exchange loss (gain) on long-term debt	5.0	(3.4)	1.6	(10.7)	(6.8)
Loss (gain) on derivative financial instruments	3.8	(0.4)	3.4	(0.3)	5.4
Foreign exchange loss (gain) on working capital	(2.1)	1.8	(0.3)	2.2	1.6
Other income	(0.1)	-	(0.1)	(0.2)	-
	12.8	4.0	16.8	(4.2)	9.6

Unallocated Costs

Unallocated costs, comprised principally of general and administrative expenses, totalled \$4.3 million in the second quarter of 2010 compared to \$4.0 million in the first quarter of 2010 and \$2.3 million in the second quarter of 2009. The increase in unallocated costs when compared to the same period in the prior year is attributable to higher accruals for performance based incentive plans.

For the six month period ended June 30, 2010 unallocated costs totalled \$8.3 million compared to \$4.3 million for the same period in 2009. The increase in unallocated costs is attributable to higher accruals for performance based incentive plans and expenses in relation to the planned conversion to a corporation on January 1, 2011.

Interest Expense

For the six month period ended June 30, 2010 the decreased net interest expense in relation to the same period in 2009 was attributable to the reduction in operating line borrowing.

Other Non-segmented Items

The foreign exchange loss on long-term debt of \$5.0 million resulted from translating the US\$110 million debt at period-end exchange rates, reflecting the weaker Canadian dollar as of June 30, 2010 as compared to March 31, 2010.

The net loss of \$3.8 million on derivative financial instruments recorded in the second quarter of 2010 relates to the settlement of maturing contracts during the quarter and the revaluation to market of outstanding contracts at the end of the quarter for natural gas swaps and US dollar forward contracts. A loss of \$0.8 million on settlement of natural gas swaps was recorded in the second quarter of 2010. The natural gas swaps are used to fix the price on a portion of the Partnership's future natural gas requirements. In the second quarter of 2010 the Partnership recorded a net gain of \$0.3 million on settlement of US dollar forward contracts to hedge the impact of currency fluctuations on US dollar working capital. The revaluation to market of outstanding derivative instruments recorded in the quarter resulted in a loss of \$3.3 million and relates to a revaluation to market of outstanding natural gas swaps and outstanding US dollar forward contracts at the end of the quarter.

SUMMARY OF FINANCIAL POSITION

The following table summarizes the Partnership's financial position as at the end of and for the following periods:

(millions of dollars, except for ratios, unaudited)	June 30, 2010	December 31, 2009
Ratio of current assets to current liabilities	2.13	2.04
Ratio of net debt to partners' equity ¹	0.14	0.19

	Q2 2010	YTD 2010	Q2 2009	YTD 2009
Increase in cash and cash equivalents	5.6	26.8	16.3	17.9
Comprised of cash flow from (used in):				
Operating activities	41.1	84.6	22.8	44.6
Financing activities	(31.4)	(51.3)	(4.6)	(18.6)
Investing activities	(4.1)	(6.5)	(1.9)	(8.1)

Note: ¹ Net debt consists of long-term debt, net of cash and cash equivalents.

Changes in Financial Position

Cash generated from operating activities was \$41.1 million in the second quarter of 2010 compared to \$22.8 million in the second quarter of 2009. The increase in cash generated from operations was primarily attributable to higher realized pulp prices in Canadian dollar terms, partially offset by lower pulp shipment volumes and higher freight costs. The increase of cash used in working capital during the second quarter of 2010 was primarily the result of an increase in the value of trade receivables due to price increases for the Partnership's pulp and paper products, and an increase in the volume of the Partnership's finished goods inventories.

The cash used in financing activities of \$31.4 million in the quarter represents distributions paid to the limited partners, namely Canfor and the Fund.

The cash used in investing activities in the quarter is comprised of \$4.1 million relating to capital expenditures. Included in capital expenditures are reimbursable amounts of \$1.6 million relating to approved projects under the Canadian federal government's Green Transformation Program.

FINANCIAL REQUIREMENTS AND LIQUIDITY

At June 30, 2010 the Partnership had outstanding long-term debt of \$116.7 million (December 31, 2009 – \$115.1 million, US\$110.0 million) in the form of unsecured US dollar private placement notes (the Notes). The Notes bear interest at 6.41% and are repayable in full on their maturity date of November 30, 2013.

At June 30, 2010, the Partnership had cash and cash equivalents of \$40.3 million. The Partnership has a \$40.0 million bank credit facility with a maturity date of November 30, 2011, of which \$0.5 million was utilized at June 30, 2010 for a standby letter of credit issued for general business purposes. In addition, the Partnership has a separate facility with a maturity date of November 30, 2011, to cover the \$16.0 million standby letter of credit issued to BC Hydro under the Electricity Purchase Agreement. Interest and other costs of the bank credit facility are at market rates.

The Partnership manages cash resources to fund current and future operations through management of its capital structure in conjunction with cash flow forecasting, including anticipated investing and financing activities. As required, the Partnership uses the bank credit facility to meet short-term working capital requirements. The Partnership also reviews on an ongoing basis, the level of distributions, capital expenditures and timing of scheduled major maintenance outages and may adjust these periodically to manage cash resources.

The Partnership also discounts letters of credit on outstanding trade receivables to reduce credit and foreign currency exposure, and to increase short-term liquidity.

The Notes and bank credit agreements each contain similar financial covenants including a maximum allowable debt:EBITDA leverage ratio and minimum required EBITDA:interest coverage ratio. The Partnership remained in compliance with all covenants at June 30, 2010.

On October 9, 2009 the Canadian federal government announced the allocation of credits from the billion dollar Pulp and Paper Green Transformation Program (the Program). The Partnership has been allocated \$122.2 million from the Program announced by the Canadian government on June 17, 2009. The Program is designed as a reimbursement of funds to be spent on qualifying energy and environmental capital projects. Credits may be used until the program end date of March 31, 2012. The Partnership received Program approval to proceed with two projects totaling \$15.6 million on June 30 2010, and expects to submit further projects over the balance of 2010. These projects are expected to provide economic and environmental benefits to the Partnership's operations.

OUTSTANDING UNITS

At July 21, 2010, there were 71,270,025 Limited Partnership Units outstanding, of which 35,493,542 units (consisting of 14,254,005 Class A Limited Partnership Units and 21,239,537 Class B Limited Partnership Units) were owned by the Fund through Canfor Pulp Trust and 35,776,483 Class B Exchangeable Limited Partnership Units were owned indirectly by Canfor.

RELATED PARTY TRANSACTIONS

The Partnership's transactions with related parties are consistent with the transactions described in the December 31, 2009 audited consolidated financial statements and are based on agreed upon amounts, and are summarized in note 9 of the unaudited interim consolidated financial statements.

INTERNAL CONTROLS OVER FINANCIAL REPORTING

During the quarter ending June 30, 2010, there were no changes in the Partnership's internal controls over financial reporting that materially affected, or would be reasonably likely to materially affect, such controls.

RISKS AND UNCERTAINTIES

A comprehensive discussion of risks and uncertainties is included in the Fund's Annual Information Form dated February 18, 2010, which is available on www.sedar.com and www.canforpulp.com.

Notes: ¹ Source – Bank of Canada (average noon rate for the period).

² For further details on the Partnership's adjusted distributable cash see the Partnership's disclosure on pages 16 and 17.

Sales are primarily influenced by changes in market pulp prices, sales volumes and fluctuations in Canadian dollar exchange rates. Operating income (loss), net income (loss) and EBITDA are primarily impacted by: the level of sales; freight costs; fluctuations of fibre, chemical, and energy prices; level of spending and the timing of scheduled maintenance downtime; and production curtailments. Net income (loss) is also impacted by fluctuations in Canadian dollar exchange rates, the market price of natural gas, the revaluation to the period end rate of US dollar denominated working capital balances and long-term debt, and revaluation of outstanding natural gas swaps and US dollar forward contracts.

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts recorded in the financial statements. On an ongoing basis, management reviews its estimates, including those related to asset useful lives for amortization, impairment of long-lived assets, pension and other employee future benefit plans and asset retirement obligations, based upon currently available information. While it is reasonably possible that circumstances may arise which cause actual results to differ from these estimates, management does not believe it is likely that any such differences will materially affect the Partnership's financial condition.

CONVERSION TO INTERNATIONAL FINANCIAL REPORTING STANDARDS

Project Update

The Partnership has completed the detailed diagnostic phase of its transition plan. The key areas where changes in accounting policies are expected that may impact the Partnership's consolidated financial statements are set out on page 27 of the Fund's 2009 annual report. The list and comments should not be regarded as a complete list of changes that will result from transition to IFRS. It is intended to highlight those areas we believe to be most significant; however, analysis of changes is still in process and not all decisions have been finalized where choices of accounting policies are available.

At June 30, 2010, the Partnership could not reasonably determine the full impact that adopting IFRS would have on its financial statements, as the current status of the project reflects the Partnership's most recent assumptions and expectations; circumstances may arise, such as changes in existing IFRS, or changes in the regulatory or economic environment, which could alter these assumptions and/or expectations. These disclosures reflect the Partnership's expectations based on information available at June 30, 2010. Changes in IFRS standards or circumstances relating to the Partnership may cause the Partnership to revise its expectations, its project plan, and its potential IFRS accounting policy choices prior to the conversion date.

No significant changes to systems (including information technology systems) have been identified to date. The implementation team will continue to assess the impact on systems as the project progresses.

A draft opening balance sheet prepared under IFRS at the date of transition (January 1, 2010) is planned to be completed in 2010. In addition, during 2010, draft financial statements and disclosure information will be prepared for each quarter (to be used for comparative purposes in 2011). Reporting under IFRS will commence for interim and annual periods in 2011.

First-time Adoption of International Financial Reporting Standards (IFRS 1)

At adoption of IFRS, an entity is required to apply IFRS 1, which provides guidance for an entity's initial adoption of IFRS. IFRS 1 generally requires an entity to apply all IFRS effective at the end of its first IFRS reporting period retrospectively. However, IFRS 1 provides certain mandatory exceptions and permits limited optional exemptions in specified areas of certain standards from this general requirement. The Partnership intends to take the following optional elections provided by IFRS 1. All other available elections are either not applicable or not material to the Partnership. Note that these elections are subject to change as further work is completed.

- Borrowing costs:

IAS 23, Borrowing Costs, requires the capitalization of borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset. Canadian GAAP allows an accounting policy choice to expense these costs as incurred or capitalize them. The Partnership intends to

elect to apply the requirements of IAS 23 prospectively from January 1, 2010.

- Employee benefits:

The Partnership intends to elect to recognize all cumulative actuarial gains and losses at the date of transition to IFRS. Actuarial gains and losses would have to be recalculated under IFRS from the inception of each of our defined benefit plans if the exemption is not taken.

- Business combinations:

The Partnership intends to apply the business combinations exemption in IFRS 1 to not apply IFRS 3 Business Combinations retrospectively to past business combinations. Accordingly, the Partnership will not modify the carrying amounts of assets and liabilities arising on business combinations occurring before the transition date.

Disclosure Controls and Internal Controls over Financial Reporting

Financial reporting controls will change due to the transition to IFRS. The majority of change surrounds new or modified processes due to the fact that IFRS requires more judgment with respect to various accounting treatments. Processes and controls will be put in place to ensure the Partnership is making the appropriate judgments and following the IFRS accounting policies selected.

DISTRIBUTABLE CASH AND CASH DISTRIBUTIONS

The Partnership reports standardized distributable cash in accordance with the Canadian Institute of Chartered Accountants July 2007 interpretive release “Standardized Distributable Cash in Income Trusts and other Flow-Through Entities”. In summary, for the purposes of the Partnership, standardized distributable cash is defined as the periodic cash flows from operating activities, including the effects of changes in non-cash working capital less total capital expenditures as reported in the GAAP financial statements.

Adjusted distributable cash is defined as the standardized distributable cash prior to the effects of changes in non-cash working capital and long-term deferred maintenance, asset retirement obligation expenditures and accruals, and after provision for accrued capital expenditures.

The Board determines the level of cash distributions based on the level of cash flow from operations before changes in non-cash working capital and long-term deferred maintenance, asset retirement obligation expenditures and accruals, less capital expenditures. During the year distributions are based on estimates of full year cash flow and

capital spending; thus distributions may be adjusted as these estimates change. It is expected that normal seasonal fluctuations in working capital will be funded from cash resources or the revolving short-term credit facility.

Distributions are declared monthly with date of record on the last day of the month and payable within 15 days following.

Canfor Pulp Income Fund

Notes to the Unaudited Interim Consolidated Financial Statements as at June 30, 2010

1. Description of the Fund and Basis of Presentation of Financial Statements

Canfor Pulp Income Fund (the Fund) is an unincorporated open-ended trust established under the laws of Ontario on April 21, 2006, pursuant to the Fund Declaration. The principal head office of the Fund is located at 1700 West 75th Avenue, Vancouver, BC, Canada. The Fund has been established to acquire and hold, through a wholly owned trust, the Canfor Pulp Trust (the Trust), investments in the Limited Partnership Units of the Canfor Pulp Limited Partnership (the Partnership), and such other investments as the Trustees of the Fund may determine. The general partner of the Partnership is Canfor Pulp Holding Inc. (the General Partner) and each partner holds an ownership interest in the General Partner equal to its Partnership interest.

Each unitholder participates pro-rata in any distributions from the Fund.

The Fund is entirely dependent on distributions from the Partnership to make its own distributions.

The Fund expects to convert to a corporation on or about January 1, 2011, pursuant to a plan of arrangement approved at the annual general meeting on April 27, 2010.

2. Significant Accounting Policies

These unaudited interim consolidated financial statements do not include all of the disclosures required by Canadian generally accepted accounting principles for annual financial statements and, accordingly, should be read in conjunction with the audited consolidated financial statements and notes included in the Fund's 2009 Annual Report available at www.canforpulp.com or www.sedar.com. These unaudited interim consolidated financial statements follow the same accounting policies and methods of computation as used in the 2009 audited consolidated financial statements.

3. Equity Investment in Canfor Pulp Limited Partnership

The Fund's equity investment in the Partnership is as follows:

(thousands of dollars, unaudited)	Six months ended June 30, 2010	Year ended December 31, 2009
Balance, beginning of period	263,644	266,274
Equity interest in income of the Partnership	37,652	6,644
Equity interest in other comprehensive income (loss) of the Partnership	24	(45)
Distributions from the Partnership	(29,814)	(9,229)
Balance, end of period	271,506	263,644

4. Distributions

The Fund declared distributions during the first six months of 2010 as follows:

(thousands of dollars, except per unit amounts, unaudited)			
Record Date	Payable Date	Amount per Fund Unit \$	Amount \$
January 29, 2010	February 15, 2010	0.08	2,839
February 26, 2010	March 15, 2010	0.12	4,259
March 31, 2010	April 15, 2010	0.12	4,259
April 30, 2010	May 14, 2010	0.12	4,259
May 31, 2010	June 15, 2010	0.20	7,099
June 30, 2010	July 15, 2010	0.20	7,099
		0.84	29,814

The Fund's monthly distributions are based on the Partnership's monthly distributions.

Monthly cash distributions from the Partnership are based on the Partnership's cash flow and are not directly equal to the Fund's pro-rata share of the Partnership's income under the equity method.

5. Related Party Transactions

All accounting, treasury, legal and administrative functions for the Fund are performed on its behalf, without charge, by the Partnership pursuant to a support agreement. Distributions earned from the Partnership for the three months ended June 30, 2010 were \$18.5 million of which \$11.4 million was received, with the balance of \$7.1 million receivable on June 30, 2010.

6. Future Income Taxes

The following table reconciles the income tax expense calculated using statutory tax rates to the actual income tax expense.

(thousands of dollars, unaudited)	Six months ended June 30, 2010	Year ended December 31, 2009
Expected income tax expense at statutory tax rate of nil (2009 – nil)	-	-
Future income tax recovery on temporary differences	(1,003)	(2,422)
	(1,003)	(2,422)

The temporary differences based on the Fund's 49.8% ownership of the Partnership are as follows:

(thousands of dollars, unaudited)	June 30, 2010	December 31, 2009
Future income tax liability:		
Equity investment in the Partnership	41,773	42,347
Expected reversal of temporary differences prior to January 1, 2011	(5,489)	(5,060)
	36,284	37,287

The future income tax liability is based on a current estimate of the balance at the beginning of 2011. The balance relates to the Fund's 49.8% ownership in the Partnership and is based on temporary differences between the accounting and tax basis of the Partnership's assets and liabilities expected to reverse after January 1, 2011.

7. Accumulated Other Comprehensive Income

(thousands of dollars, unaudited)	Six months ended June 30, 2010	Year ended December 31, 2009
Balance, beginning of period	32	77
Other comprehensive income (loss)	24	(45)
Balance, end of period	56	32

8. Financial Instruments

The Fund's financial instruments consist of distributions receivable from the Partnership and distributions payable to unitholders. Distributions receivable are classified as loans and receivables, and are measured at amortized cost. Distributions payable are classified as other liabilities and are measured at amortized cost. The carrying values of these financial instruments approximate their fair values due to the relatively short period to maturity of these instruments.

The Fund is exposed to certain risks related to the nature of its investment in the Partnership and the structure of the Fund, as well as the underlying risks related to the business of the Partnership. The Fund relies on the objectives, policies and processes of the Partnership for managing these risks.

9. Segmented Information

The Fund operates in one industry segment, namely investing in pulp and paper producing assets in one geographic region, Canada.

Canfor Pulp Limited Partnership

Notes to the Unaudited Interim Consolidated Financial Statements as at June 30, 2010

1. Business Description and Basis of Presentation of Financial Statements

Canfor Pulp Limited Partnership (the Partnership) is a limited partnership formed on April 21, 2006, under the laws of Manitoba, to acquire and carry on the NBSK pulp and paper business of Canadian Forest Products Ltd. a subsidiary of Canfor Corporation (collectively Canfor). The business consists of two NBSK pulp mills and one NBSK pulp and paper mill located in Prince George, British Columbia and a marketing group based in Vancouver, British Columbia (the Pulp Business).

At June 30, 2010, Canfor owned 50.2% and Canfor Pulp Income Fund (the Fund) indirectly owned 49.8% of the issued and outstanding units of the Partnership.

The general partner of the Partnership is Canfor Pulp Holding Inc. (the General Partner), which holds an interest of 0.001% of the Partnership.

These unaudited interim consolidated financial statements are those of the Partnership and do not include the assets, liabilities, revenues and expenses of its partners. The Partnership, other than its incorporated subsidiaries, is not subject to income taxes as its income is allocated for tax purposes to its partners. Accordingly, no recognition has been made for income taxes related to Partnership income in these financial statements. The tax attributes of the Partnership's net assets flow directly to the partners.

Certain comparative figures have been reclassified to conform to current year presentation.

Economic Dependence

The Partnership depends on Canfor to provide approximately 59% (2009 Year – 63%) of its fibre supply as well as to provide certain key business and administrative services as described in the Fund's 2009 Annual Report available at www.canforpulp.com or www.sedar.com. As a result of these relationships the Partnership considers its operations to be dependent on its ongoing relationship with Canfor.

2. Significant Accounting Policies

These unaudited interim consolidated financial statements do not include all of the note disclosures required by Canadian generally accepted accounting principles for annual financial statements. The Partnership's accounting policies are as disclosed in the annual consolidated financial statements of the Partnership included in the Fund's 2009 Annual Report available at www.canforpulp.com or www.sedar.com. These unaudited interim consolidated financial statements follow the same accounting policies and methods of computation as used in the 2009 audited consolidated financial statements.

3. Inventories

(millions of dollars, unaudited)	June 30, 2010	December 31, 2009
Pulp	54.6	55.2
Paper	12.8	15.9
Wood chips	28.0	21.5
Processing materials and supplies	43.0	42.8
	138.4	135.4

4. Property, Plant and Equipment

(millions of dollars, unaudited)	June 30, 2010		
	Cost	Accumulated amortization	Net
Land and improvements	5.4	-	5.4
Asset retirement - Landfill	2.3	0.8	1.5
Buildings, machinery and equipment	1,348.7	843.6	505.1
Construction in progress	3.1	-	3.1
	1,359.5	844.4	515.1

(millions of dollars, unaudited)	December 31, 2009		
	Cost	Accumulated amortization	Net
Land and improvements	5.4	-	5.4
Asset retirement - Landfill	2.3	0.8	1.5
Buildings, machinery and equipment	1,344.1	820.1	524.0
Construction in progress	3.2	-	3.2
	1,355.0	820.9	534.1

5. Other Long-term Assets

(millions of dollars, unaudited)	June 30, 2010	December 31, 2009
Pension benefit plan	10.6	11.3
Maintenance shutdown costs	4.7	5.4
Other	0.4	0.4
	15.7	17.1

6. Employee Future Benefits

The Partnership, in participation with Canfor, has funded and unfunded defined benefit plans, as well as a defined contribution plan, that provide pension, other retirement and post-employment benefits to substantially all salaried employees and for its hourly employees covered under collective agreements. The defined benefit plans are based on years of service and final average salary. The post-employment benefit plans are non-contributory and include a range of health care and other benefits.

Total employee future benefit expenses were as follows:

(millions of dollars, unaudited)	Three months ended		Six months ended	
	June 30, 2010	June 30, 2009	June 30, 2010	June 30, 2009
Pension plans	1.5	1.3	3.0	2.5
Other employee future benefit plans	1.1	0.8	2.2	1.7
Contributions to forest industry union plans	1.7	1.7	3.3	3.3
	4.3	3.8	8.5	7.5

7. Credit Facilities and Long-term Debt

At June 30, 2010 the Partnership had outstanding long-term debt of \$116.7 million (December 31, 2009 – \$115.1 million, US\$110.0 million) in the form of unsecured US dollar private placement notes (the Notes). The Notes bear interest at 6.41% and are repayable in full on their maturity date of November 30, 2013.

The Partnership has a \$40.0 million bank credit facility with a maturity date of November 30, 2011, of which \$0.5 million was utilized at June 30, 2010 for a standby letter of credit issued for general business purposes. In addition, the Partnership has a separate facility with a maturity date of November 30, 2011, to cover the \$16.0 million standby letter of credit issued to BC Hydro under the Electricity Purchase Agreement. Interest and other costs of the bank credit facility are at prevailing market rates.

The Notes and bank credit agreements each contain similar financial covenants including a maximum allowable debt:EBITDA leverage ratio and minimum required EBITDA:interest coverage ratio. The Partnership remained in compliance with all covenants at June 30, 2010 and throughout the period.

The fair value of long-term debt at June 30, 2010 was \$127.2 million (US\$119.9 million).

8. Long-term Liabilities

(millions of dollars, unaudited)	June 30, 2010	December 31, 2009
Accrued pension obligations	6.3	5.8
Post-employment benefits	44.6	43.2
Derivative financial instruments (note 11)	0.6	1.2
Asset retirement obligations	3.1	3.0
	54.6	53.2

9. Related Party Transactions

The Partnership's transactions with related parties are consistent with the transactions described in the December 31, 2009 audited consolidated financial statements and are based on agreed upon amounts between the parties, and are summarized below:

(millions of dollars, unaudited)	Three months ended		Six months ended	
	June 30, 2010	June 30, 2009	June 30, 2010	June 30, 2009
Transactions				
Canfor	35.5	27.5	69.7	55.0
Howe Sound LP – commission received	0.6	0.6	1.2	1.2
Howe Sound LP – sale of wood chips	-	-	-	0.1
Lakeland Mills Ltd. – purchase of wood chips	1.5	1.3	2.7	1.8
			June 30, 2010	December 31, 2009
Balance Sheet				
Included in accounts payable and accrued liabilities:				
Canfor			42.8	40.8
Howe Sound LP			21.8	17.6
Lakeland Mills Ltd.			0.5	0.4
Included in trade accounts receivable:				
Product marketed for Canfor			21.6	24.4
Product marketed for Howe Sound LP			17.4	16.5

Transactions and payables to Canfor include purchases of wood chips, pulp and administrative services.

10. Net Income (Loss) per Partnership Unit

Basic net income (loss) per Partnership unit is based on the weighted average number of Limited Partnership units outstanding during the period. All outstanding Partnership units were issued on July 1, 2006, and there was no change in the number of outstanding Partnership units during the quarter.

11. Derivative Financial Instruments

The Partnership uses derivative instruments to reduce its exposure to risks associated with fluctuations in foreign exchange rates, pulp and natural gas prices.

For the second quarter of 2010 the Partnership recorded a net loss on derivative financial instruments of \$3.8 million (second quarter 2009 – gain of \$0.3 million) relating to the settlement of maturing contracts during the quarter, and the revaluation to market of outstanding contracts at the end of the quarter, for natural gas swaps and US dollar forward contracts.

The Partnership recorded losses of \$0.8 million during the second quarter of 2010 (second quarter 2009 – loss of \$2.1 million) relating to settlement of maturing natural gas contracts as a charge to non-operating income. At June 30, 2010 the Partnership had outstanding commodity swaps hedging future natural gas purchases of 1.1 million gigajoules extending to October 2011. At June 30, 2010 the unrealized loss of \$3.7 million (June 30, 2009 – loss of \$6.1 million) on these outstanding commodity swaps was recorded as a liability in accounts payable and accrued liabilities and in long-term liabilities.

The Partnership recorded a gain of \$0.3 million during the second quarter of 2010 (second quarter 2009 – gain of \$2.3 million) on settlement of maturing US dollar forward contracts to non-operating income. At June 30, 2010 the Partnership had outstanding US dollar forward contracts of \$112.3 million extending to October 2010. At June 30, 2010 the unrealized loss of \$3.3 million (June 30, 2009 – loss of \$1.1 million) on these outstanding US dollar forward contracts was recorded as a liability in accounts payable and accrued liabilities.

12. Supplementary Cash Flow Information

(millions of dollars, unaudited)	Three months ended		Six months ended

- (a) Operations are presented by product lines. Operations are considered to be in one geographic area since all production facilities are in Canada. Substantially all sales are exported outside Canada, with sales to the United States representing 40% (Year 2009 – 36%).
- (b) Sales to the largest customer represented approximately 12% of pulp segment sales (Year 2009 – 7%).
- (c) Sales of slush pulp to the paper segment are accounted for at approximate market value. The sales are transacted as a cost transfer and are not reflected in Pulp sales.
